FIRST ANNOUNCEMENT

VI-th INTERNATIONAL CONFERENCE

Ion Implantation and Other Applications of Ions and Electrons

Kazimierz Dolny, Poland
June 26-29, 2006

organized by

Maria Curie-Skłodowska University, Lublin
Lublin University of Technology
Wrocław University of Technology

ORGANIZERS

Dariusz Mączka - chairman, Maria Curie-Skłodowska University, Lublin
Paweł Żukowski Lublin University of Technology
Jerzy Zdanowski Wrocław University of Technology, Poland
Jerzy Żuk Maria Curie-Skłodowska University, Lublin

You are cordially invited to participate in the sixth International Conference “Ion Implantation and Other Applications of Ions and Electrons”, ION 2006. The Conference will be held in Kazimierz Dolny, Poland, from June 26 to June 29, 2006.

The Conference will review the current state of knowledge in the field of ion and electron interaction with solids. It will give the opportunity to present interesting results and new trends in the application of ions for the investigation of solid surface layers and modification of their physical and chemical properties.

The following topics are covered by the Conference:

- ion implantation and sputtering,
- fundamentals of ion and electron beam interactions with solids,
- plasma processing of materials,
- mass spectrometry and its applications,
- ion beam analysis,
- unconventional applications of ion and electron beams,
- new developments in ion beam equipment.

The diversity is a great advantage of the Conference since it offers the unique opportunity to stimulate open discussion and exchange of experience and ideas between researchers. Therefore we would like to invite physicists, materials scientists, engineers, and other specialists to take part in the Conference.

The official language of the Conference is English.

CONTRIBUTIONS

The scientific program of the Conference is being prepared in consultation with the International Scientific Committee. In addition to the invited talks, contributions for 15 minutes oral presentation will be selected from the submitted abstracts. Remaining contributions will be presented in poster sessions. The Proceedings of the Conference, containing papers accepted by referees, will be published as a special issue of the VACUUM journal.

CONFERENCE SITE

The ION 2006 Conference will be held at the “Dom Dziennikarza” hotel in Kazimierz Dolny, a beautiful and historical little town on the Vistula river, 120 km from Warsaw. The hotel, which is the accommodation place for most of the participants, is situated within a walking distance from the town’s center. Full board, including breakfasts, lunches and evening meals will be served at the hotel restaurant.

CONFERENCE FEE

The fee is 1300 PLN (350 EUR for foreign participants), single room accommodation, and 1100 PLN (300 EUR) for double rooms. Student and accompanying persons rate is 750 PLN (200 EUR). Payments must be free of bank charges to the organizers. After May 31, 2006 the fees will be 10% higher.

The Conference fee covers board and lodging, a book of abstracts, coffee breaks and the extensive social programme consisting of a conference party, a barbecue and sightseeing tours.

We would like to ask everybody wishing to attend the ION 2006 Conference to complete the attached registration card and return it to the Conference Secretariat not later than January 31, 2006.

Please inform your colleagues about this Conference!

REGISTRATION CARD (Submit until January 31st 2006) VI-th International Conference ION 2006, Kazimierz Dolny, June 26-29, 2006

Surname Name Title (Prof., Dr, Mr., Mrs.)
Company/Institution Country
Post code City Street Phone
